25th September 2020

Dear Parents & Carers

The start of term has been really successful and we wanted to thank you for all of your support with using the markings on the site; to help maintain social distancing wherever possible.

The numbers of children attending our Nursery setting have remained low, which has meant in some cases the Nursery bubbles can go as low as four or five children during certain sessions. In order to provide the best support and development for the children and because the pupil numbers are so low, from Monday, 28th September the Nursery will form one complete bubble.

This will actually allow the children greater space to learn and explore in the setting. We will continue to ensure that the cleaning and handwashing routines remain in line with DfE guidance.

Thank you again for your support, we know that this slight change will enable us to get closer to our normal routines and further improve support for the children.

Kind regards

Yours sincerely

S Springett-McHugh
